ADI HYDRAULIC LOPPERS ARE THE COOLEST RUNNING, LIGHTEST AND LONGEST LASTING TOOLS AVAILABLE ON THE MARKET TODAY.

ADI LOPPERS ARE ALL ABOUT VERSATILITY-OFFERING FIVE DIFFERENT LENGTHS, AND THREE DIFFERENT HEAD STYLES. THIS ALLOWS YOU TO CUSTOMIZE YOUR ADI LOPPER TO MEET YOUR SPECIFIC NEEDS. SHOULD YOUR NEEDS CHANGE, SIMPLY CHANGE THE HEAD ASSEMBLY INSTEAD OF PURCHASING AN ENTIRE TOOL.

THE CYLINDERS USED ON ALL ADI LOPPERS ARE MADE OF CHROMED STEEL INSTEAD OF THE ALUMINUM OUR COMPETITORS USE. THIS GREATLY INCREASES THE LIFE OF THE CYLINDERS AND THE SEALS.

ADI LOPPERS ALSO FEATURE A PATENTED SPOOL SYSTEM THAT ELIMINATES HEAT GENERATION WITHIN THE TOOL. THIS PROVIDES A SAFETY BENEFIT TO OWNERS AND OPERATORS ALIKE AND EXTENDS THE LIFE OF THE TOOL.

THESE ADVANTAGES AND MANY MORE CONTRIBUTE TO ADI TOOLS HAVING THE LOWEST OVERALL COST OF OWNERSHIP OF ANY OTHER HYDRAULIC PRUNING TOOL ON THE MARKET.

SPECIFICATIONS

Max Flow: 4-8 GPM
